

Development of perspectives using photography

Tracing existing elements from photographs

Using photographs

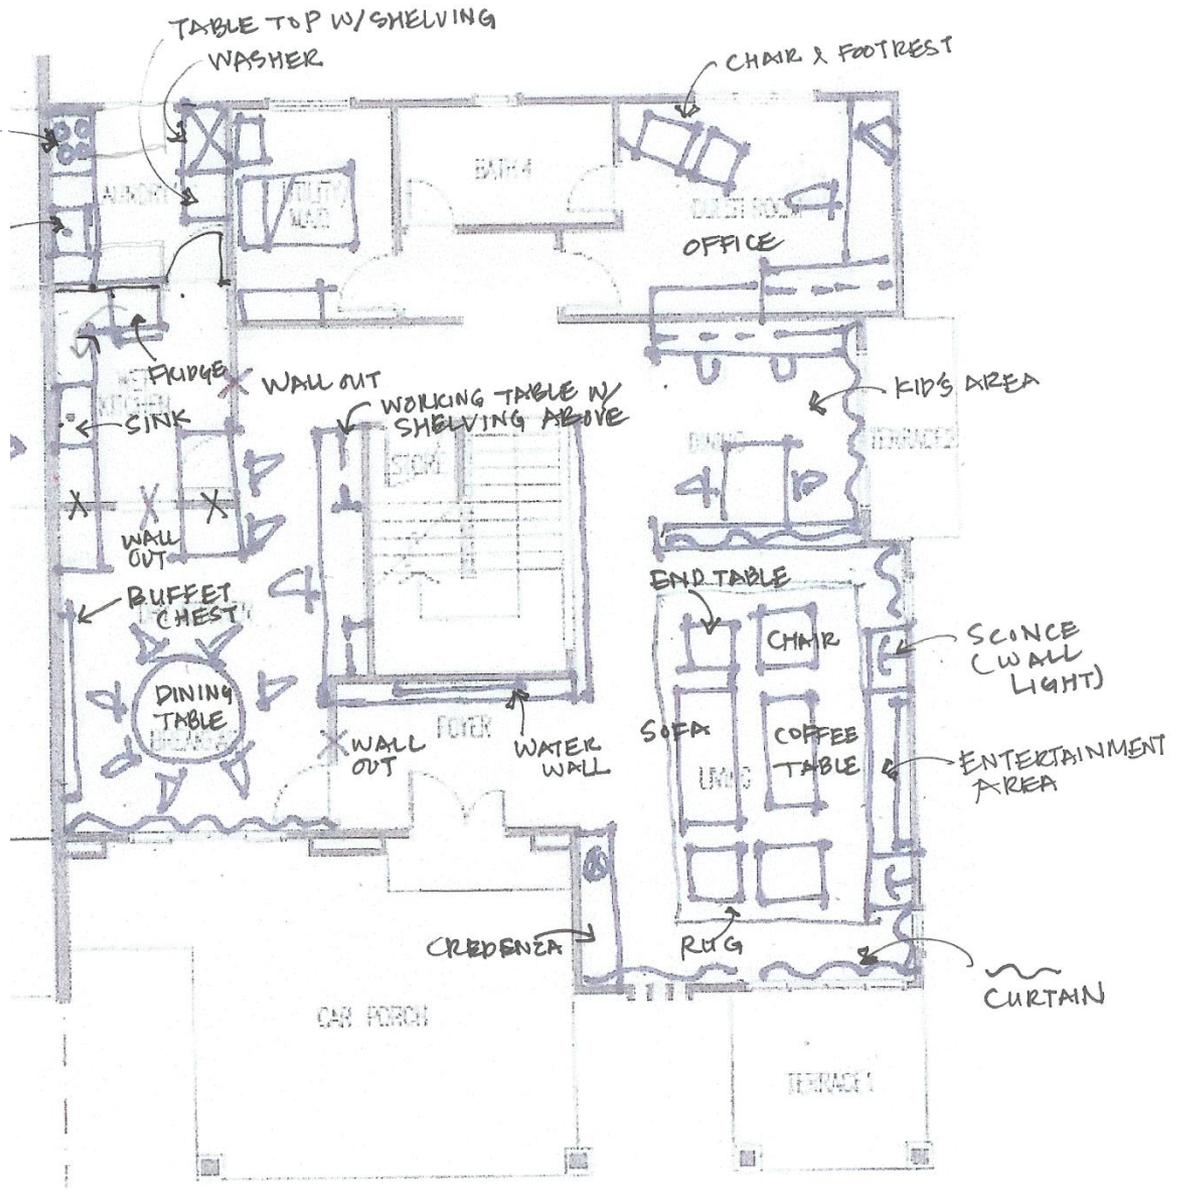

- ▶ Sketch out your own interior perspective of the given space in the floor plan
- ▶ You as the designer needs to come out with several ideas about the space
- ▶ Use eye-ball method
- ▶ Designing a residential home
 - ▶ 2-story house
 - ▶ Given- a furniture plan (ground floor)
 - ▶ Provide an interior perspective - a modern approach

GROUND FLOOR PLAN
SEMI-D TYPE 'A' - LOT 106, 108, 110, 112 & 114

Exercise 1 - Looking @ the foyer from the living room

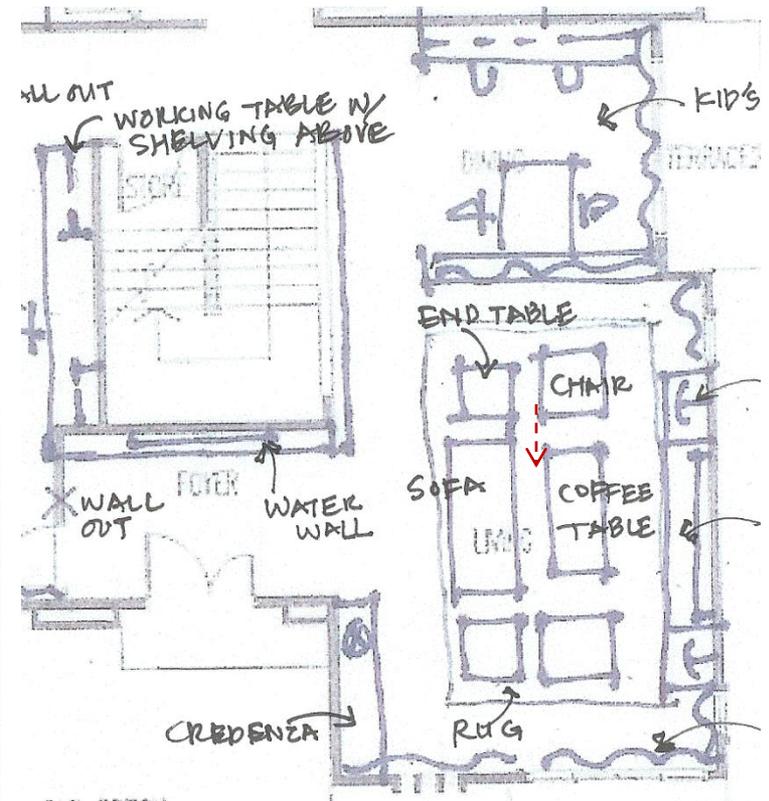

Sketch out the foyer

- ▶ Place and tape the picture of the foyer down on your board
- ▶ Then place a tracing paper on top
- ▶ Use eye-ball method
 - ▶ Find the vanishing points and the horizon line
 - ▶ Then draw all the planes – ceiling, floor, and walls
- ▶ Use a 2H pencil to sketch the foyer on how you want it to look like
 - ▶ Don't have to follow the furniture plan given
- ▶ Then, use a 2nd sheet of tracing paper on top of the 1st sketched and revise it with more details by adding furniture, texture, pattern, accessories, lighting
- ▶ You can repeat the process if you are not satisfy with the end design
- ▶ Lastly, use a new sheet of tracing paper on top of the 2nd sketched paper and finalize the perspective drawing with line weights and line quality (2H, HB, 4B)
- ▶ You have the option to use sharpie (use fine and wide sharpie with some help of pencil lines)

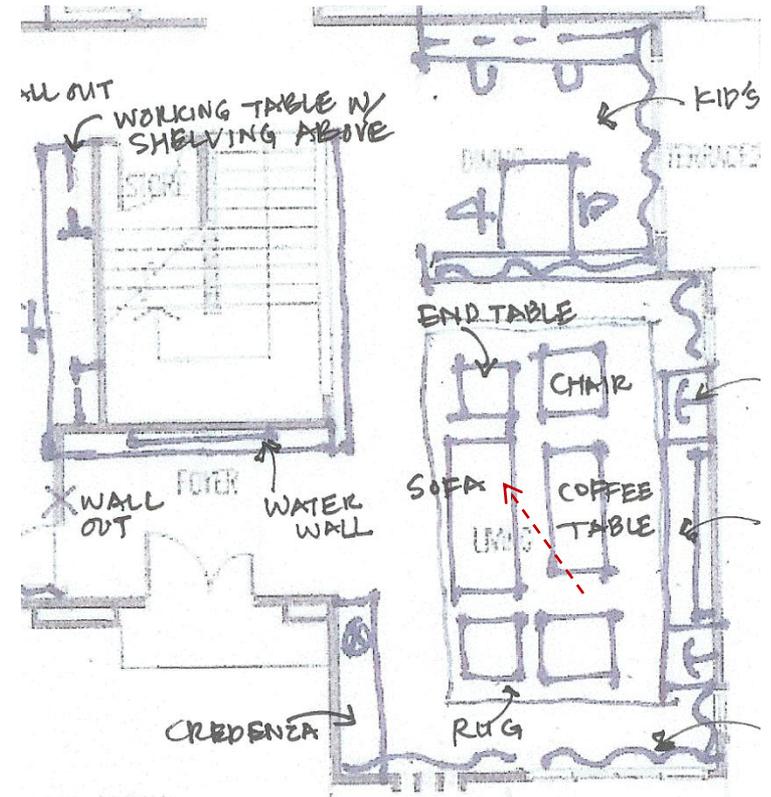

Exercise 2 - Looking @ the front view of the living room

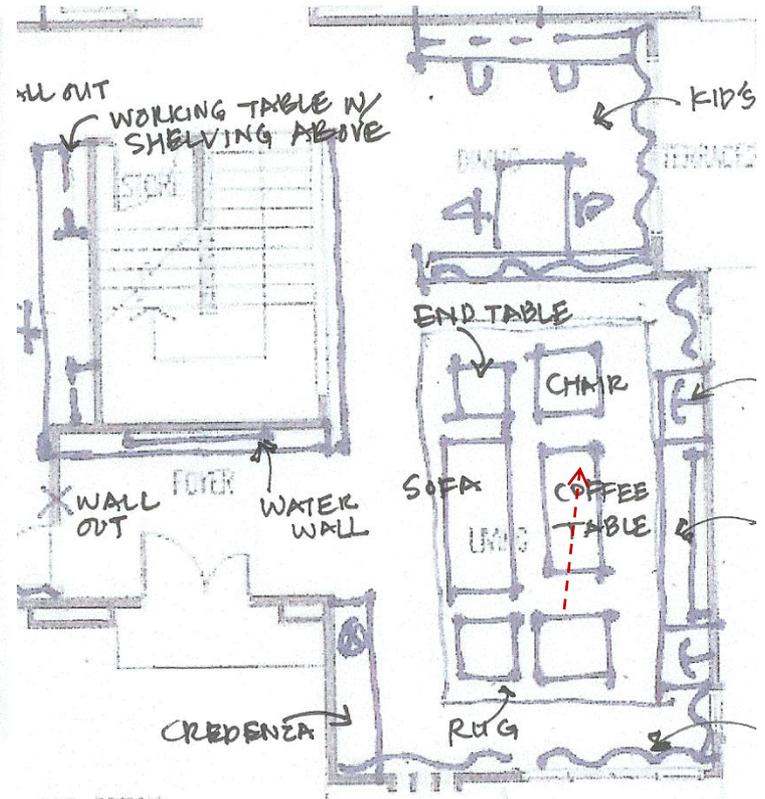

- ▶ Repeat the same process from the foyer

Looking @ the living room thru the adjacent openings

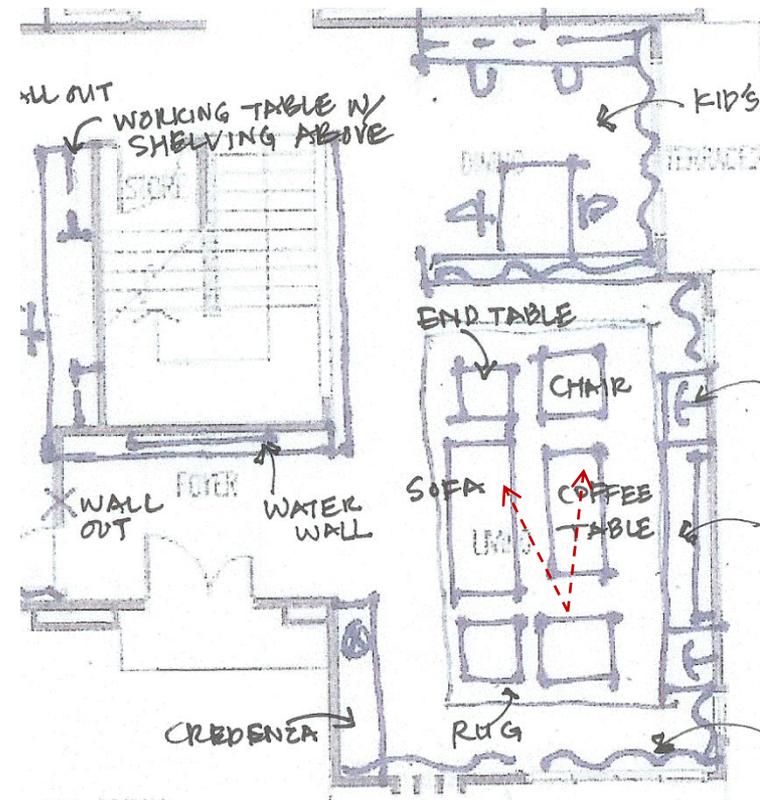

Looking @ the back view of the living room thru the kid's area

Looking @ the back view of the living room thru the kid's area

- ▶ Sketch out the living room by combining both photographs

Looking @ the living room thru the adjacent openings

1st loose sketch- sketch out the living room

- ▶ Place and tape both pictures of the living room down on your board
- ▶ Then place a tracing paper on top
- ▶ Use eye-ball method
 - ▶ Find the vanishing points and the horizon line
 - ▶ Then draw all the planes – ceiling, floor, and walls
- ▶ Use a 2H pencil to sketch the living room on how you want it to look like

2nd sketch –refined perspective

- ▶ Then, use a 2nd sheet of tracing paper on top of the 1st sketched and revise it with more details such adding furniture texture, pattern, accessories, lighting
- ▶ You can repeat the process if you are not satisfy with the end design
- ▶ Lastly, use a new sheet of tracing paper on top of the 2nd sketched paper and finalize the perspective drawing with line weights and quality (2H, HB, 4B)
- ▶ Add accessories in your perspective
- ▶ You have the option to use sharpie (use fine and wide sharpie with some help of pencil lines)
