Ceiling Height: 6’ – 3”

Loft Height: 3’ – 8”

Total Sq Ft: 116
Design requirements

Urban Chic Style

- Sophisticated
- Contemporary
- Modern
- Refined
- Clean
Creating a functional and attractive space in such a tiny home is quite the challenge.

The solutions presented here utilize architectural and non-architectural elements to maximize the function of the interior space, while incorporating a clean, minimalist design.

The use of sleek luxurious finishes, and creating storage areas to keep clutter contained create a restful environment for this vacation home.

Comfortable lounge seating, dining, and rest areas are ideal for a couple desiring simple living.
Conceptual diagrams

- Bubble diagrams
  - Include all 5 Bubble diagrams
  - Label all the diagrams individually
    - Starting with bubble diagram #1 and ….

Elevations
Important information to include

- Label everything
- Keep texts to minimal
- Written words are not as important as the visual experience
- Include scale, north orientation (not applicable here)
- Well design and maintain cohesiveness throughout pages
- Emphasize on project, not background
- Make it dynamic
- Add your own personal style
- Something must spark attention and jump off the page
- Keep it simple and sleek (KISS)
