

# Tiny House Presentation

---

Bailey Lushina, Maddy Kavanaugh, Caitlyn Lake

# Urban Style

- Urban style has a cosmopolitan vibe, and a softer, more comfortable look than industrial styles.
- Granito wrote, “Original brick walls, rugged wood floors and enormous steel windows create a sense of laid back, cool while open floor plans and lots of natural light give these spaces an open, airy feeling,”.

# Bringing the outdoors Inside

- Bring natural fibers, patterns, and textures into design
- Use outdoor colors
- Use natural flooring instead of man made
- Use outdoor elements
  - rocks, shells, wood, etc.
- Implement natural light

# Using Multi-purpose Architectural Elements

- Stairs can have Multi-purpose
  - Storage
  - Eating nook
  - Study table
- Bedroom nook double as storage
- Hidden furniture

# Using Non-Architectural Elements in a Multipurpose way

# Using Non-Architectural Elements in a Multipurpose way

- Ideas for multipurpose furniture come from the need to use space in the most efficient way possible when you have smaller spaces to work with.
- Using Furniture as storage is a great way to reduce the need for bigger closets.
- Using a sofa sleeper can replace the need for a spare bedroom.
- Or instead of a sofa sleeper the storage space on the wall can fold out into a bed to save floor space during the day while people are walking around.

# Tiny House Precedent Study

---

# Profile of the Owners

- **Dakota & Charles**
  - Front Range, Colorado
  - Repurposed bus for Charles' music tours
- **What makes it great?**
  - It is 100% mobile by Repurposing a mechanical school bus
  - Solar powered
- **Multi-purpose Architectural Elements**
  - A murphy bed that folds up against the wall that doubles as a desk
  - Slide out freezer built into base cabinets
- **Multi-purpose Non-Architectural Elements**
  - Used only architectural elements
  - They had a couch they could have used to place storage underneath the frame of the sofa.
  -
